NOVELTIES

for 1930

Large Flowering Types

MARIE DE PETRIS. A fine large yellow Mum. Incurved and well rounded form. Blooms Nov. 15th and can be held for later. Strong grower—stiff stems. Good substance. (Limited amount for first year distribution).

Rooted Cuttings, 15.00 per 100

The following are
BAUR-STEINKAMP INTRODUCTIONS
and their descriptions

WHITE CHIEF. In White Chief we have an incurved white of good commercial size and good substance. A splendid sort to follow Quaker Maid. Blooms October 18th from terminal bud and perfects practically all its bloom. Grows four feet tall.

GOLDEN BRONZE. Produces large spreading blooms of good substance. A wonderful shade of golden bronze, so much desired by the buying public. Grows five feet tall from June planting. Take terminal bud for best results. Earlier buds come lighter in color. Blooms October 25th to November 1st.

ROSE GLORY. A bright lavender pink to cut along with Celestra and Justrite. October 15th to 20th. Good stem and foliage. Grows five feet from June planting. Take terminal bud for best color.

	5.00 per dozen
Rooted Cuttings	25.00 per 100

Pompons and Singles

DOROTHY TURNER

DOROTHY TURNER

(A. N. Pierson, Cromwell, Conn.)

The best Pompon for Thanksgiving. An Ideal color combination of Bronze and Old Gold.

Its habit of growth is about commercially perfect, branching strongly from base, producing freely, stems 30 in. and higher and being wiry, need little support. Very fine for pot culture.

Won the Silver Cup at the Chrysanthemum Society Annual Show, 1917.

15.00 per 100, 125.00 per 1000

POMPONS AND SINGLES—*Continued*

The Following Are
BAUR-STEINKAMP INTRODUCTIONS
and their descriptions

IRIDESCENT—The color is a wonderful combination of gold and pink. Most effective just before fully matured when all its shades are at their height. Blooms October 15th. A good grower, producing strong sprays. Medium height.

LILAC—Grow this in place of Leilah on account of its improved color and better spray. Grows about eight inches taller and is more vigorous in general. Beautiful solid lavender pink which holds its brightness well. Blooms same date as Leilah, which is about October 15th.

GOLD-TIPS—This variety is both beautiful and unique. The petal is a bright bronze and tipped at the end with bright yellow, hence the name Gold-tips. They bloom third week in November. Blooms are a trifle larger than Nuggets and are borne in good sprays. Grows medium height.

SILVER-TIP—Won the C. S. A. Silver Cup at Chattanooga for the best Pompon seedling. Bright pink with silver tip at end of each petal. Gives good yield of fine sprays and blooms second week in November. Unusually good keeper and shipper.

Rooted Cuttings:

5.00 per doz., 25.00 per 100, 200.00 per 1000

XMAS CHEER—Scarlet red sport of Mrs. E. D. Godfrey. Can be cut from Thanksgiving to Christmas, therefore the name.

Rooted Cuttings

7.50 per 100, 65.00 per 1000

Large-flowering 'Mums

GENERAL COLLECTION

A letter before each variety indicates, for quick reference, the season of flowering—early, late, etc. The date after each variety is approximate date of flowering.

E—Early. To get best flowers, it is important to order early and plant early in May or June for best results. If buds are not formed on dates shown, reserve the first bud appearing after that date.

M—Midseason. When seasons are favorable, some of these will bloom a few days before November 1st.

L—Late. Late flowering varieties usually have best blooms about November 10th, if early buds are taken and the season is favorable. These varieties may be had for later blooming by selecting the later buds and planting later.

T—Thanksgiving varieties usually flower shortly before Thanksgiving, but can be held, in most cases, for Thanksgiving sales.

"C. S. A. Certificate" is the award of the "Chrysanthemum Society of America."

SELECTING THE BUDS OF 'MUMS

Generally the best flowers come from the second crown and terminal buds. The crown bud may be distinguished by the fact that it appears early and is surrounded by vegetative growth; that is, leaf shoots, not buds. Crown buds are earlier, usually produce the larger bloom and more petals in the bloom. Color, however, is not as intense as from a terminal bud.

A terminal bud is late and is surrounded by other buds. It is the terminus of a year's growth. It is best because of a more intense color in the bloom and better foliage. The flowers are smaller and in some cases not as double as from a crown bud.

General Information

PRICES: Prices are for rooted cuttings, which we believe to be more satisfactory than potted plants. Prices are subject to change without notice, also subject to crop failure.

ORDER EARLY: It is to your advantage to let us know as early as possible what you will want. Help us to help you by ordering early.

OUR SERVICE: We want to supply you the best varieties suitable for your business. Consult us. We will give you expert advice so far as we can. The information in this list regarding the date of taking bud, height of bloom and flowering dates and descriptions will be helpful to you.
SAVE THIS LIST FOR REFERENCE.

OUR RESPONSIBILITY: We accept orders contingent upon our ability to have produced for us sufficient stock to meet the demands. All orders are filled in strict rotation. Orders will be filled as near the date desired by customers as it is possible to do so, bearing in mind that weather conditions and many other elements sometimes delay the growth of stock beyond human control. All orders are booked subject to crop shortages and crop failures. We agree to supply good stock, well rooted, packed in the proper manner and to deliver to the express company or post office (whichever customer designates) after which the plant travel at buyer's risk.

CLAIMS FOR DAMAGE: All claims for damage must be made against the carrier by the buyer. We have no control over transportation agencies and cannot be responsible for stock frozen, heated or injured by delays or rough handling. According to law, the transportation companies are the agents of the buyer and our responsibility ceases when we deliver stock in good condition to such agencies.

NON-WARRANTY: We do not warrant in any way, expressed or implied, the contents or the description, purity, productiveness or any other matter of any seeds, bulbs or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once and money will be refunded. Subject to the above conditions, we make this sale at the moderate prices at which we sell our goods. All claims must be made in writing within five days after the receipt of goods.
